

COMPACT

Scraping radius batching plant
with planetary mixer

Technical features

COMPACT

This plant involves weighing the aggregates via a holding hopper.

MINI COMPACT

It is the smallest version of the COMPACT plant, designed for precast producers.

PLANETARY MIXER

Plant designed with planetary mixer to guarantee an excellent concrete quality.

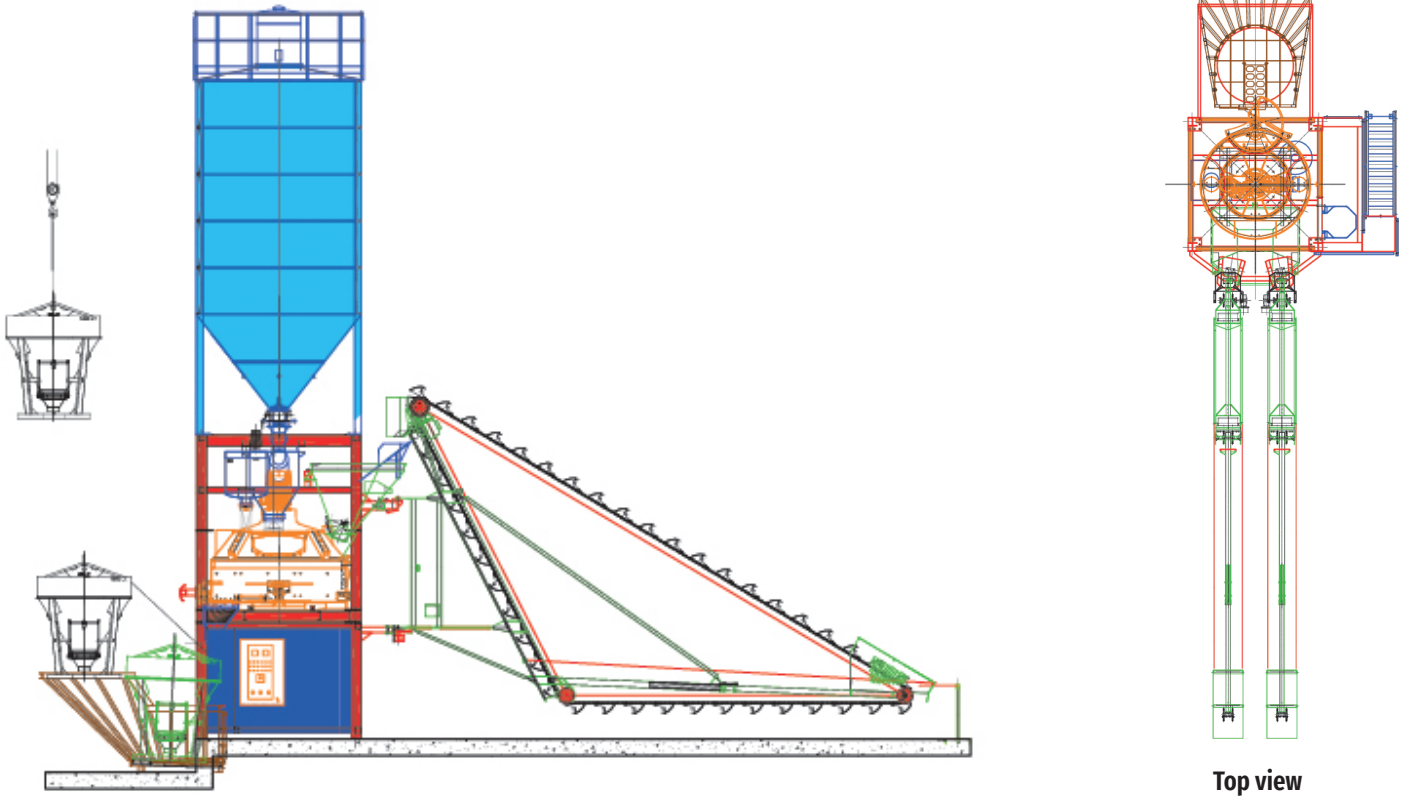

SCRAPING RADIUS

The plants are equipped with a scraping radius and it is also possible to have a second one to use up to 4 aggregates.

Key points

- ✓ **Excellent Quality/Price Ratio:** Excellent quality of concrete with a compact batching plant.
- ✓ **Aggregate Weighing:** The aggregates are correctly dosed in the waiting hopper thanks to the 3 load cells.
- ✓ **Compactness and Adaptability:** Ideal plant for the concrete production on construction site, suitable to unload on a concrete bucket or directly on a wheeled pump.

Configurations

COMPACT – MINI COMPACT		MC 400	MC 500	C 900	C 1200	C 1800	C 2200
